# Improve Accessibility in Classe365 with EqualWeb

Classe365 is committed to ensuring digital accessibility of the platform for users with disabilities. Classe365 is continuously improving the user experience for all users and applying the relevant accessibility standards. To assist in this mission, Classe365 has partnered with digital accessibility company EqualWeb to ensure that all Classe365 users are provided the same, rich experience. If you're wanting to take advantage of the integration between Classe365 and EqualWeb and make your site more accessible to all users, you've come to the right place! Keep reading to find out how you can make your Classe365 tenant more accessible in under 10 minutes!

Increasing your sites accessibility is easier now than ever before thanks to accessibility widgets from EqualWeb. These widgets are fully compliant with all digital accessibility regulations and are loaded with tools such as voice commands, smart navigation, color & content adjustment, and more! Oh, and did we mention they're completely **FREE** to use? No? Well, they are! To get your FREE accessibility widget, just follow the steps in our detailed guide below!

1. The first thing you'll want to do is open your preferred browser and go to equalweb.com. Select "**Plans & Pricing**" from the menu located at the top of the page.
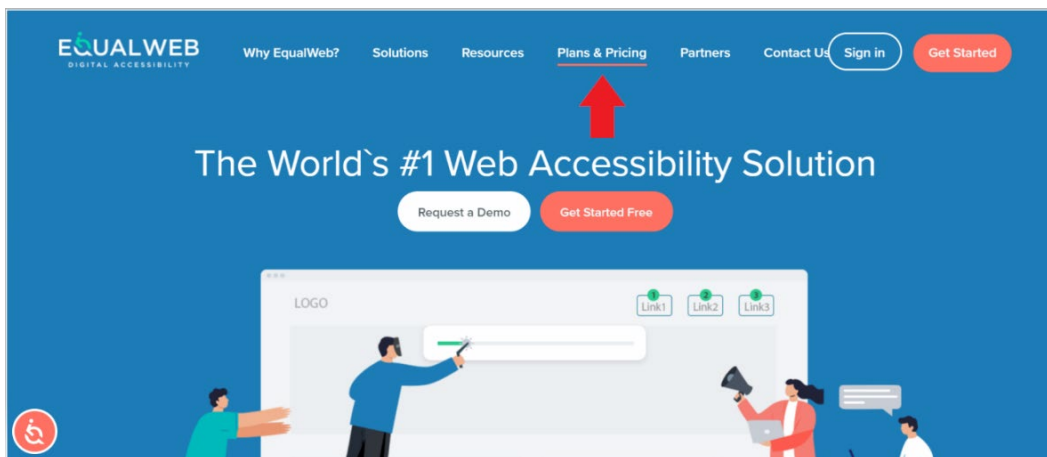

2. From the "Plans & Pricing" page, click on the last tab on the right labeled "**Free Tools**" (denoted by "1" in the image below). Then, click "**Get your FREE code now**" on the first card labeled "**Free**". ("2" in the image below)
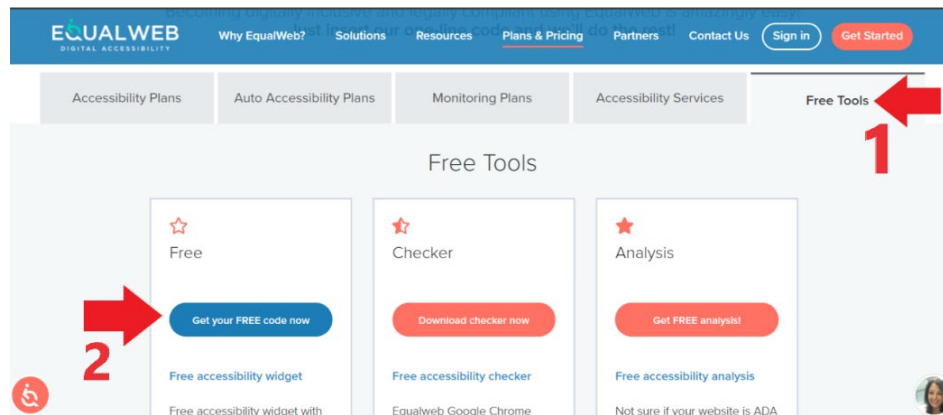

3. **CREATE A FREE ACCOUNT**: You'll be prompted to create a free EqualWeb account. Complete the registration form (example shown at right) and click "**Start Now**" once you are finished.

4. **ACTIVATE YOUR ACCOUNT:** EqualWeb offers three options to receive activation codes-- email, SMS, and phone call. Select your preferred method by clicking the button next to the respective field.

   Note: We recommend receiving the code via phone call. We did not have any success with the SMS option despite multiple attempts. Email, while successful, took nearly 10 minutes to receive.****

5. Once you receive your activation code, enter it into the proper field, then click "**Check Code**". Once the code is confirmed, you will be prompted to enter details of your website (your Classe365 tenant). Enter the details as shown below.
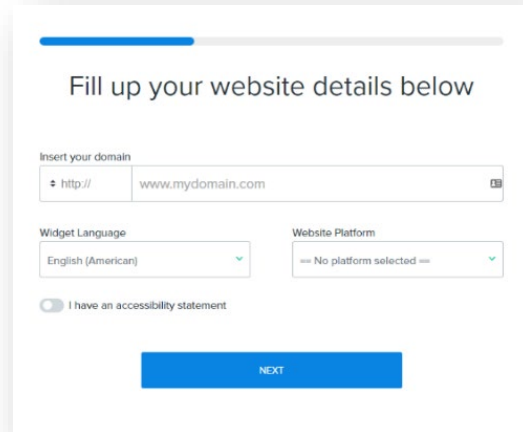

Be sure to select https:// from the dropdown

Domain: https://www.yourtenant.classe365.com

Language: [Your Preferred Language]
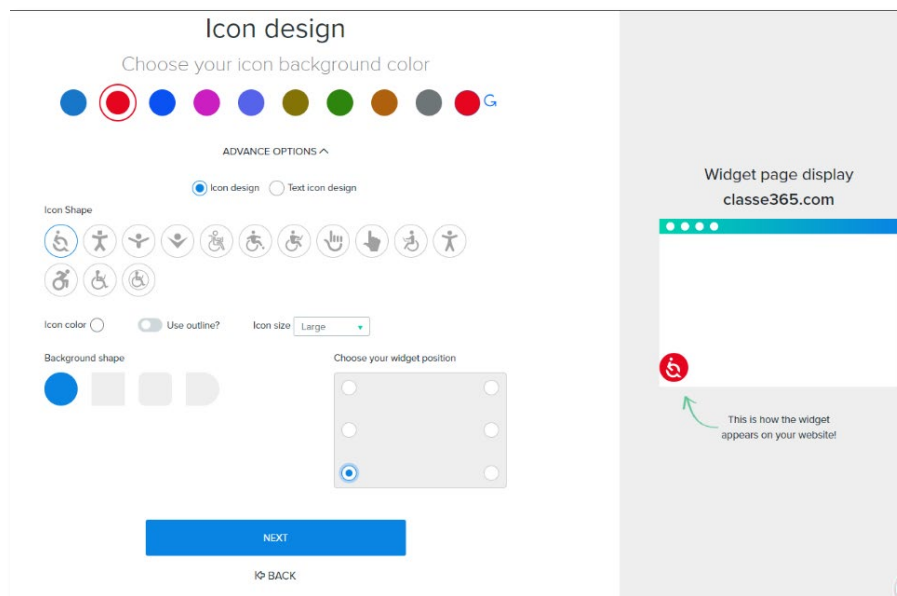

Website Platform: Other Platform

I have an accessibility statement: Toggle **Off**

Once you have entered all the required details, click "**Next**"

6. **DESIGN YOUR WIDGET:** Select the desired options for each widget component, then select the desired position for the widget.

Once you have finished designing your accessibility widget, click "**Next**".

7. **ACCESSIBILITY CODE:** A small bit of code will be displayed on-screen. This code will allow you to embed the accessibility widget in your Classe365 tenant. Click "**Copy code**".

8. To add your EqualWeb widget to your Classe365 tenant, open **Settings** and select "**Org Settings**" from the dropdown menu.

9. In Org Settings, select "**Apps**" from the menu on the left side of the screen
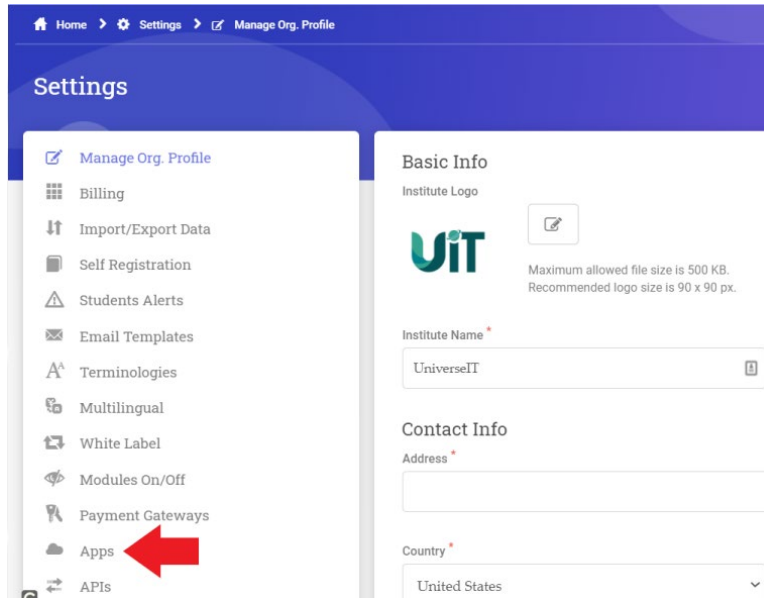

10. Scroll through the list of available apps until you see "EqualWeb" and click on the EqualWeb logo.
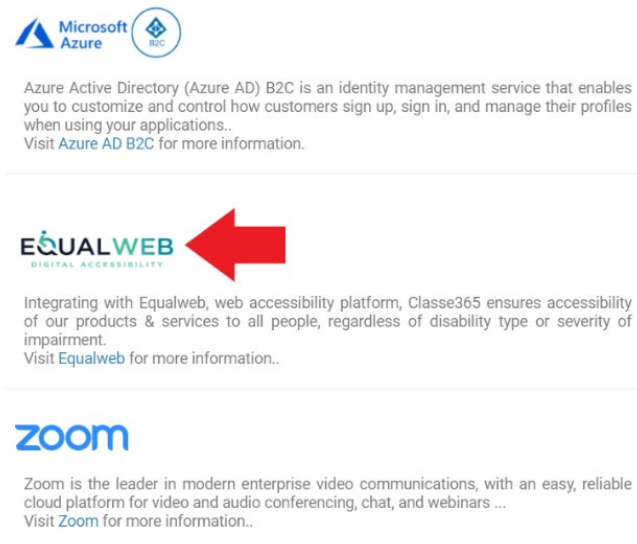

11. Paste the code copied from EqualWeb into the text area labeled "**Accessibility Code**" (**1**) and check the box labeled "**Enable this Integration**" (**2**). Once the code has been added and the box has been checked, click "**Save**" (**3**).
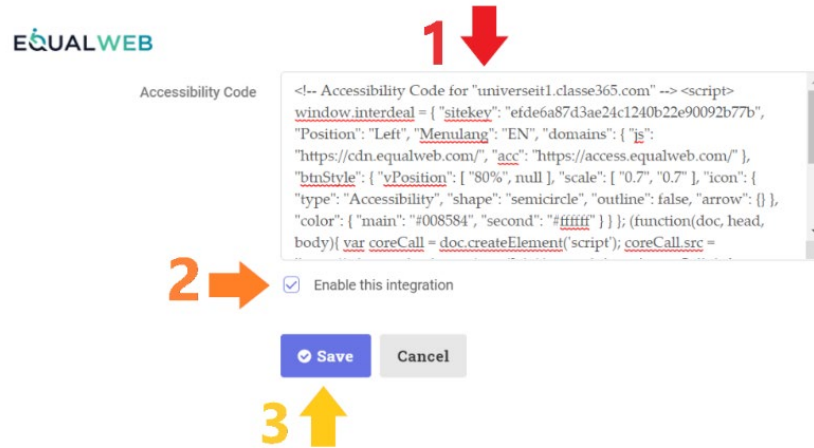

12. **That's it!** The accessibility widget is now installed in your Classe365 tenant! Your users can immediately begin utilizing all the features provided by the widget. Just click on the widget to display the list of available options/features, then click on the feature or features you wish to enable.
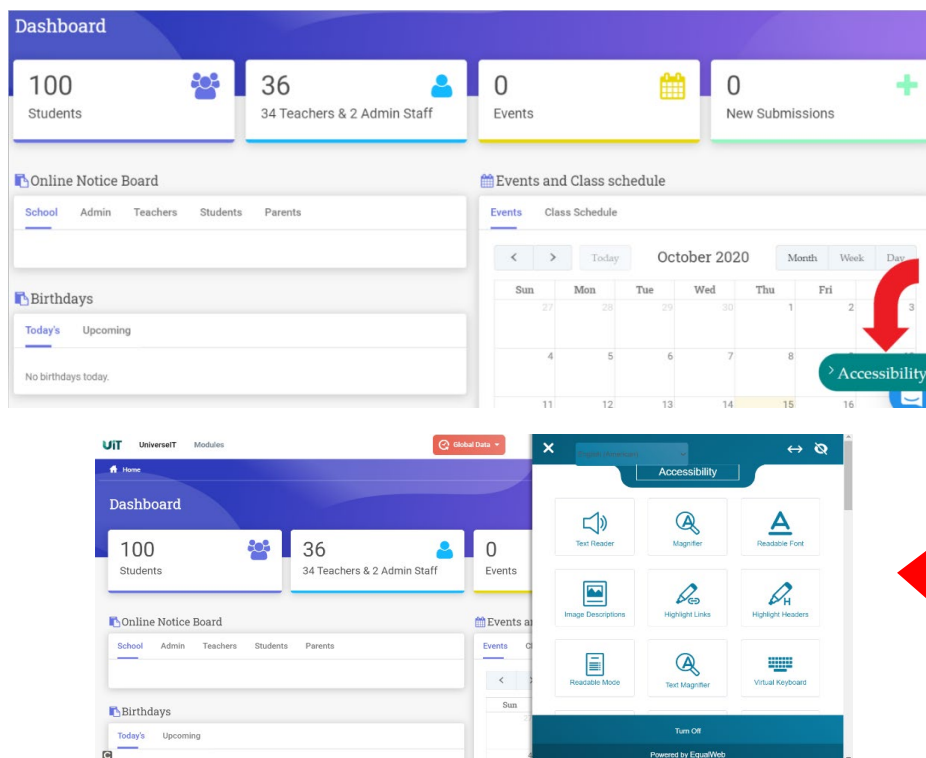

Apply digital accessibility for users with disabilities for your Classe365 tenant in under 10 minutes!
